

# MIDLANDS E.I.T.

SPECIALIZED SANITATION SYTEMS

## Specialized Commercial & Industrial Sanatizing Solutions

The Sanitizing booth has been constructed keeping Industrial & Commercial industries mind that require a rugged and durable equipment to assist in the fight against COVID 19 in the work place. There are different models available, namely the base model depicted below, thermal, facial recognition & automated hand sanitizing dispenser

- \* Size 1200mm x 1200mm x 2400mm
- \* The Booth is automated and activates for 5 seconds per individual
- \* Product used is accredited
- \* Units are 220v plug and play so no need for Electrical Installations
- \* Thermal & facial recognition units available
- \* Automated hand sanitizing units available
- \* We are in the process of developing collapsable systems which will be much more affordable & DIY installation. This product will be suited for export.
